To Whom It May Concern,

I am writing to express my interest in the Internship role. I am a highly motivated and skilled student, with a unique blend of technical and psychological expertise, seeking a career in the software industry.

As a dual degree holder in BTech Artificial Intelligence, Data Science, and BSc Psychology, I possess a deep understanding of the technical and human aspects of software development. My analytical mindset and strategic thinking, developed through reading non-fiction literature, make me a valuable asset to any team. I am passionate about full-stack development, web development, and cyber security and honing my skills through hands-on experience and coursework.

I am committed to ethical and sustainable principles and my background in psychology will be an added advantage to any employer. I had an internship experience with many organizations which enhanced my problem-solving and teamwork skills.

I am excited about the opportunity to apply my skills and knowledge to the Intern role and make a valuable contribution to your team. I am confident that my passion for technology and my unique perspective can bring fresh ideas and innovations to your organization.

Thank you for your time and consideration. I look forward to the opportunity to discuss how I can contribute to your team.

Sincerely,

**Gowtham A**
